31st March, 1928.

Brighton County Borough Mental Hospital.

TWENTY-FOURTH ANNUAL REPORT OF THE VISITING COMMITTEE (Pursuant to Section 190 of the Lunacy Act, 1890),

BEING THE SIXTY-NINTH ANNUAL REPORT SINCE
THE FOUNDATION OF THE MENTAL HOSPITAL.

To the Council of the County Borough of Brighton.

The Visiting Committee submit their Report for the past year.

The number of patients on the books on the 31st December last, and on the corresponding date of the previous year, was as follows:—

	1926	1927
Males	310	319
Females	524	528

The numbers are divided as follows:—

	Males	Females	Total
From Brighton Union	182	301	483
From Brighton Borough	2	5	7
From the part of the Steyning Union within the County Borough	37	75	112
From Eastbourne Union	49	87	136
From Napsbury Mental Hospital ...	—	15	15
Out County	6	4	10
Private	19	41	60
Service	22	—	22
Ex-Service	2	—	2

In addition to the above there are five female children placed under contract at Hellingly Mental Hospital and twelve male children placed under contract at the Surrey County Mental Hospital at Netherne. There are also two male patients at Hellingly receiving malarial treatment.

Two changes have taken place during the year in the Administrative Staff. Dr. H. V. Humphrey has been appointed Second Assistant Medical Officer, and Miss N. C. Morris has been appointed Sister Tutor in place of Miss Armstrong, resigned.

The general health of the patients and staff has been satisfactory.

The weekly maintenance rate in respect of the four quarters of 1927 has remained at 24s. 6d.

Members of the Committee have regularly visited the patients and inspected the Wards at each monthly meeting.

Two members of the Committee have visited the Brighton imbecile children at the Hellingly and Netherne Mental Hospitals respectively, and were satisfied with the arrangements made for their care and comfort at both Institutions.

The Committee think it should be more widely known that during the past two years an Out-patient Clinic has been in operation at the premises of the Guardianship Society, 82, Grand Parade, Brighton, at which on one day in each week the Medical Superintendent, or his Deputy, attends for the purpose of seeing patients in the early stages of their illness, and advising treatment with a view to preventing certification, and thus so far as possible avoiding their admission to the Mental Hospital. Since the opening of the Clinic, 192 patients have been treated—in most cases—with beneficial results, and the Medical Superintendent is satisfied that this early treatment of incipient cases of insanity has in many instances been the means of avoiding admission or re-admission to a Mental Hospital. It will therefore be seen that the clinic is performing a useful work and meeting a growing need.

During the last three years a local branch of the Mental After Care Association has been in operation at No. 82, Grand Parade. The functions of the Association are to visit all patients discharged from the Mental Hospital as recovered or "on trial" assisting them if necessary in obtaining employment, finding homes for those whose friends cannot be ascertained, and generally rendering such help as may be required.

Deputations from Boards of Guardians have visited the patients in the Institution chargeable to their respective Unions and left satisfactory reports.

A Commissioner of the Board of Control paid a visit of inspection on the 14th and 15th December last and left a favourable report. The Headquarters Inspector of the Ministry of Pensions has also visited the Service patients detained in the Hospital.

The contract with the Napsbury Mental Hospital for the reception in the Mental Hospital of 15 Middlesex patients has been renewed for a further period of five years, and the contract with the East Sussex Visiting Committee for the reception of female imbecile children at Hellingly Mental Hospital has been renewed for a further period of three years.

Various improvements have been carried out during the year, including the following :—

Erection of roof and fencing round Elevator Pit near Boiler House and roofing over coal bunkers at a cost of £355.

Providing galvanised iron canopies over Vegetable Boilers in Kitchen, £100.

Substitution of Electric Fittings for Gas fittings in Main Buildings, Sanatorium, etc., at a cost of £140.

It is anticipated that the sanction of the Ministry of Health will very shortly be given to the necessary loan for the erection of sixteen houses for occupation by members of the Hospital Staff. A contract has been

accepted, and the work of erection will be commenced as soon as the sanction is to hand.

A contract has also been accepted for the construction of the main drain and the provision of Ejector Plant for the disposal of the drainage of the Mental Hospital into the Haywards Heath Sewerage system. This work will also shortly be commenced. The Committee found the advice and experience of the Town Clerk of great value during the prolonged negotiations with the Local Authorities and the Ministry of Health, which happily ended in the settlement of a long standing and difficult problem.

The formal ceremony of installing Electrical Plant at the Institution was performed by Mr. James Colbourne J.P., for many years Chairman of the Committee, on the 12th March last, and was attended by Sir Frederick Willis, K.B.E., C.B., the Chairman of the Board of Control.

Superannuation allowances have been granted during the year to Charge Male Nurse William Mills and Alfred Trigg, stoker.

On the 4th June last the Committee reported to the Council with a synopsis of the accounts for the year ended 31st March last, and these accounts will appear in the Committee's Blue Book.

The prescribed increases of pensions under the Pensions (Increase) Act, 1920, granted to pensioners of the Institution eligible to receive the same have, with the concurrence of the Contributing Authorities, been further continued until the 31st March, 1928.

Dr. Harper-Smith, his medical colleagues and the Staff generally, continue to discharge the duties of their respective offices to the entire satisfaction of the Committee.

On behalf of the Committee,

(Signed) WM. STEVENS,

4th February, 1928.

Chairman.

THE
MEDICAL SUPERINTENDENT'S REPORT.

To the Visiting Committee.

MR. CHAIRMAN AND GENTLEMEN,

I have the honour to submit the Twenty-fourth Annual Report of the Brighton County Borough Mental Hospital, being the sixty-ninth report since the opening of the Institution.

The admissions during the year 1927 have been :—
Males 88, Females 130 ; Total 218.

The discharges and transfers during the year have been Male 51, females 82 ; Total 133.

The deaths during the year have been Males 28, Females 44 ; Total 72.

Compared with the year ending 31st December, 1926, the number of patients chargeable to Brighton has increased by 8, and the total number remaining in Hospital has increased by 13.

The average daily number resident during the year has been Males 313, Females 524 ; Total 837.

The number of patients in the Hospital on December 31st was, Males 319, Females 528 ; Total 847.

They were chargeable as follows :—

	M.	F.	Total.
Brighton Parish	182	301	483
The portion of Steyning Union included in the County Bor- ough of Brighton	37	75	112
Out County Unions	6	4	10
Private Patients	19	41	60
Service Patients	22	—	22
Ex-Service Patients	2	—	2
Patients under Contract—			
Eastbourne	49	87	136
Napsbury	—	15	15
Borough of Brighton	2	5	7

The number of indirect admissions, that is patients transferred from other Hospitals, was males 12 and females 12; total 24. 27 males and 51 females were discharged recovered during the year, giving a percentage of recoveries, calculated on direct admissions of 35.53 per cent. for males, and 43.22 per cent. for females. This is not as high as last year but during the year 48 patients were admitted over 60 years of age.

The following casualty occurred during the year. W.H., fracture dislocation of right shoulder on 10/12/27, caused by a fall in the dormitory while dressing.

With an average daily number of 837 patients, the fact that there was only been one casualty, is proof of the great care and attention given by the Nursing Staff to the patients, the more so, when the great age of a number of the patients is taken into consideration.

One inquest was held during the year on a male patient, A.G., who was admitted on January 28th, 1920 suffering from severe Epilepsy. He died on March 8th, 1927. The verdict of the jury was, "Died

from exhaustion and heart failure in the beginning of an epileptic fit, to which he was frequently subject." Previous to this no inquest had been held since October 11th, 1925.

During the year the health of the patients has been very good. There was a small epidemic of influenza during the months of January and February.

No patient has suffered from dysentery, the last case occurred in March, 1924. Six male patients and 12 female patients are suffering from chronic tuberculosis. The death rate was 8.9 per cent. for male patients, and 8.4 per cent. for female patients; an average of 8.6 per cent.

Dr. Forward, Headquarters Inspector, Ministry of Pensions, visited on July 29th, and Dr. Rotherham, a Commissioner of the Board of Control visited on December 14th and 15th.

Representatives from Brighton, Eastbourne, Steyning, and Edmonton Boards of Guardians visited during the year, and left satisfactory reports.

Dr. Humphry who had acted as *locum tenens* was taken on the permanent staff on May 1st. He has shown a very keen interest in his work and in the welfare of the patients.

Miss N. C. Morris was appointed Sister Tutor on October 24th in place of Miss A. W. Armstrong who resigned.

Six patients suffering from General Paralysis were temporarily transferred to the East Sussex Mental Hospital, Hellingly, for Malarial treatment. Of these, one has been discharged recovered, but he relapsed, and has been readmitted; two are still receiving treatment there. One died while under treatment and two have returned not improved.

The usual Entertainments for the patients have been held throughout the year. Wireless entertainments, dances, concerts, whistdrives, and Char-a-banc outings to Theatres, Cinemas, the South Downs, and to Cricket and Football matches, to local Fetes and Gymkhanas.

An average of 37 female patients, and 16 male patients have been well enough to be on full parole daily.

In only one case, had this privilege to be withdrawn. Forty-seven male patients have had daily parole in the Hospital grounds.

Miss Dennis attends every Friday afternoon to teach male and female patients country dances.

109 female patients and 5 male patients have attended, and greatly benefited in health.

The female patients have formed a Debating Society and have a weekly attendance of about 40. They have presented petitions suggesting alterations for their comfort ; several of which have been granted.

With the exception of one ward, all female patients have clothing provided for their own use, and marked with their names. This is greatly appreciated by all the patients.

Local ladies frequently entertain parties of patients at their houses, one lady Miss Dolan, has been very generous, having entertained 63 patients throughout the year.

Eleven female patients and 8 male patients have spent week ends at their homes on several occasions. They have thoroughly enjoyed this privilege. Eight male patients spent Christmas day and Boxing day at home, having been granted four days leave, and in no case has there been any trouble in their returning to the Hospital.

Twenty-three female and 26 male patients have been allowed to visit Brighton, Eastbourne and London, on parole, for one day. They have always returned to the Hospital at the right time.

We have now four female wards with open doors leading to the Ward Gardens, and one male and one female ward with open doors leading to the Hospital grounds. No attempt to escape has been made.

Members of the Nursing and Artisan Staff, have taken patients out for the day on several occasions.

The Out-patient Clinic in Brighton was opened on January 4th, 1926 and since that date, 192 patients have been treated. The object of the Clinic was to treat patients in the early stages of their illness, with a view to prevent the necessity of Certification. Of the patients treated at the Clinic only twelve have had to be certified, and sent to a Mental Hospital. The majority of these were only certified owing to the fact that, when they first attended, their illness had progressed too far for them to be treated as out-patients. Others were certified because they required complete rest, and it was found that it was impossible for this treatment to be undertaken in their own homes.

A certain number of the patients who were certified were Mental Defectives.

The Guardianship Society has also given valuable assistance to discharged patients, 137 patients have been discharged to their care since the Clinic started, 72 during 1926, and 65 during 1927.

Homes have been found for these 137 patients, and in many cases employment has been obtained and with few exceptions, the patients have remained well.

I am very grateful to Miss Woodhead, the Secretary of the Guardianship Society in Brighton, for the assistance she has given in this work.

Mr. Glassington, the Dental Surgeon, attends one day each week ; during the year 680 patients have received treatment, viz. : 273 males and 407 females. Six sets of dentures have been supplied to patients by the Guardians, at a cost of £6 10s. 0d. per set.

Every endeavour is made to give as much " open air " treatment as possible under the present conditions. It has been found very beneficial, as it promotes natural sleep, which is so important in the treatment of mental patients.

I am much indebted to the Medical Officers, the Clerical Staff, and all other officials for the assistance they have given me, and I wish to thank all members of the staff for their co-operation in carrying on the work of the Hospital.

I desire to express my very grateful thanks to you, Mr. Chairman and to the members of the Committee for the kindly support, and generous help afforded me during the year.

I am, Mr. Chairman and Gentlemen,

Your obedient Servant,

(Signed) G. H. HARPER SMITH,

Medical Superintendent.

February 4th, 1928.

THE REPORT OF THE CHAPLAIN.

GENTLEMEN,

I beg leave in accordance with your regulations, to submit to you my third annual report.

The work has proceeded on the usual lines, as far as the services are concerned. Every weekday morning prayers have been taken in the Dining Halls for male and female patients. On Sunday mornings prayers have been said in Male Ward 5 ; on Sunday afternoons in Female Ward 5 ; on Monday mornings in Male Ward 6 : and on Friday mornings in Female Ward 6.

The Holy Communion has been celebrated in the Chapel on the first Sunday in each month ; also on Easter Day and Christmas Day. There was morning prayer with a sermon every Sunday morning at 10 a.m., and on Ash Wednesday, Good Friday and Ascension Day ; and Evening Prayer (with the Litany on the last Sunday in each month) every Sunday afternoon at 3 p.m.

There were thirty-two funerals conducted in the Hospital Chapel and Cemetery during the year ; and in addition, in the case of two patients who were buried in the Haywards Heath Cemetery, the first portion of the Burial Service was taken in the Chapel. The work of the members of the Hospital Staff, who have taken part in these services, has been done efficiently and reverently.

The organist and choir have worked well for the improvement of the musical part of the services ; and

the extra music which they have from time to time practised and rendered has been much appreciated. Every Ward and the Sanatorium have been regularly visited each week, and visits have been paid daily when necessary, to individual patients who were suffering from serious illness.

The Recreation Hall was on nine occasions visited on Wednesday when friends of the patients were present.

A considerable amount of time and effort were expended on reorganising the library system; and the new arrangements seem likely to be satisfactory.

During the year the Rev. R. T. Cripps, who had given me a large amount of assistance in the work, left the neighbourhood. I desire to acknowledge his services, as much as those of the Rev. D. Litle, the Rev. S. A. W. Madge and the Rev. H. E. Ward. The last named in particular has given most valuable help.

I am, Gentlemen,

Yours faithfully,

(Signed) J. A. W. BELL,

*Vicar of Haywards Heath and
Prebendary of Chichester,*

2nd January, 1928.

Chaplain.

REPORT OF THE DENTAL SURGEON.

BRIGHTON COUNTY BOROUGH MENTAL HOSPITAL,
HAYWARDS HEATH.

The Dental Surgeon has the honour to lay before the Committee his Annual Report.

The number of patients attended since January, 1927, has been 680 : Males, 273 ; Females 407.

The number of teeth extracted has been 694, gas being administered in 42 cases, the remainder being extracted with local anaesthetic.

The number of fillings completed has been 16, and 22 patients have had their teeth scaled and cleaned.

A number of patients have had their dentures attended to.

The Dental Surgeon wishes to thank the Medical Officers for their kind assistance in the administration of N.2.0 gas.

(Signed) S. F. GLASSINGTON,

L.D.S., R.F.P.S.

31st December, 1927.

REPORT OF A COMMISSIONER OF THE BOARD
OF CONTROL.

BRIGHTON MENTAL HOSPITAL,
HAYWARDS HEATH,
15th December, 1927.

During yesterday and this morning I have inspected this Hospital, and to the best of my belief I have seen all the patients in residence.

I found the Hospital to be kept in excellent condition, and the patients to be comfortable and well cared for. The Day Rooms and Dormitories were bright and cheerful, and the former were well supplied with books and games, but some of them were on the old side, and I thought greater attention should be paid to the heating arrangements. The patients' clothing appeared to be of good quality and sufficient in quantity for both indoor and outdoor wear, and the bedding was quite satisfactory. I was glad to hear that each patient is provided with a full outfit for his own use only. The arrangements that are carried out for making the lives of the patients happy, both inside and outside the hospital, form a great feature of the administration. Besides the usual dances, concerts, etc., held every week, picnics are given in the Park and char-a-banc drives to places of interest in the neighbourhood or to a theatre at Brighton are of frequent occurrence. These outings are largely made possible by the use of money obtained from profit from the tea fund, and from a sale of work organised by Dr. Harper-Smith's wife who takes the greatest interest in the welfare of both Staff and patients, and who spends much time and trouble every year in

making the whole of the Christmas decorations for the recreation hall. Local ladies visit the patients frequently and ask a number to their houses, and a trained dancer visits weekly to teach country dances to patients and to hold a class for Nurses. Mixed whist drives and community singing are also arranged. All this must, I feel sure, be much appreciated by the patients. Perhaps consideration may be given to the appointment of an Occupation Officer.

Many improvements to the Hospital have been carried out during the past year among which may be mentioned the erection of a pavilion in the Park, the installation of new lavatory basins with hot and cold water in Male Wards 1 to 8 and in Female Wards 1 to 5, and the re-decoration throughout of the Female infirmary. This decoration has been excellently carried out and is most suitable for a ward for the sick.

Among the most important improvements about to be undertaken are the erection of a cinema at one end of the recreation hall, the conversion of a stable into a laboratory and the erection of sixteen Staff cottages.

The question of the erection of an admission hospital is still under consideration by the Committee and with Dr. Harper-Smith I visited various sites which are thought to be suitable. I was quite in agreement with him that the best sites are (1) in the plantation on the west side of the estate adjoining the Ditchling Road, and (2) on the sloping ground in front of the block now used as a Sanatorium. I suggested to Dr. Harper-Smith that he should enquire as to the possibilities of sewerage, and the provision of the various services to the first site, and also as the nature of the land with regard to surface drainage, and that, when he has obtained full information on these points, he should visit the Board's offices to discuss the question more fully.

As a result of the changes that have taken place amongst the patients since the last visit there are now

on the books the names of 847 patients, 319 men and 528 women, and all were in residence to-day, except one of each sex away on trial.

Of this number, 85, 43 men and 42 women are classed as private patients, 23 of the former being service or ex-service patients, and 164, 56 men and 108 women are chargeable to out-county Unions, 137 being chargeable to Eastbourne, 15 to Middlesex and the remainder to various Unions. The total accommodation in the Mental Hospital as returned to my Board in January last provides for 731 by day and 919 by night, so that there is overcrowding by day to the extent of 114 patients, 32 males and 82 females, whilst by night there are vacancies for 74, 25 males and 49 females. I hope efforts will be made to rectify this discrepancy between the day and night space by converting some of the rooms now used as dormitories into rooms for use by day, as at present the overcrowding when the patients are in their sitting rooms in the evenings must be considerable. When this has taken place the Hospital will be practically full on both sides, and while patients are received from Eastbourne and elsewhere on Contract—and there is little hope of finding room for them in other Mental Hospitals—there will be no vacancies for the future. The erection of the admission hospital will, no doubt, meet immediate needs on both sides, but I hope the Committee will give serious consideration to the possibility of boarding out patients of both sexes in Poor Law Institutions under Sec. 26 of the Lunacy Act, if such can be found with reasonable vacant accommodation and a sufficiency of nursing staff, or by boarding out with friends under Sec. 57.

The maintenance charges are 24/6 for home, and from 28/- to 63/- for private patients. The average weekly cost as last ascertained being 24/9 $\frac{3}{4}$.

The Health of the patients has been good, and the death rate 7.05 per cent. for 1926 was a satisfactorily low one. All the 72 deaths were due to natural causes,

and the cause was verified by post mortem examinations in as many as 66 instances. One inquest has been held. Except for an epidemic of influenza in January and February last the Hospital has been free from epidemic disease, and only 12 patients, all women, are known to be suffering from tuberculosis.

The suggestions made by my colleague in the last report have received consideration. Some, *i.e.*, the issue of cold milk with porridge and the provision of extra bed tables have been carried out—though further tables are still necessary—and others, as already mentioned, will be undertaken shortly. The erection of verandahs and the provision of ultra violet rays still remain for the future.

In one of the male wards I received a few complaints as to the dietary. The complaints as made, did not appear to be of importance, but I should like to feel satisfied that a regular and good supply of fresh vegetables is issued.

The Staff consists of 51 male and 71 female Nurses for day, and of 10 male and 13 female Nurses for night duty. Of the former, 34, and of the latter 31, are certificated or registered as mental nurses, and 9 men and 10 women have passed the preliminary examination for the certificate.

Dr. Harper-Smith has the assistance of Dr. Guppy and Dr. Humphry. Besides his work in the Hospital in which he displays the greatest interest, he also holds an out-patient clinic at Brighton once a week. The Brighton Guardianship Society have been extremely good in helping in this work by providing a room for Dr. Harper-Smith's use, and in supplying a Nurse to assist him who also visits patients in their own homes.

(Signed) A. ROTHERHAM.

“ RATE-PAID ” PATIENTS’ DIETARY SCALE.

				Males.	Females.
BREAKFAST.	Bread	6 ozs.	5 ozs.
	Margarine	$\frac{1}{2}$ „	$\frac{1}{2}$ „
	Coffee or Cocoa	1 pt.	1 pt.

with one of the following Extras *daily* :—

	Fish Paste or Meat		
	Paste	1 oz.	1 oz.
	Tinned Meat	2 ozs.	2 ozs.
	Porridge	$\frac{1}{2}$ pt.	$\frac{1}{2}$ pt.
	Luncheon Sausage	2 ozs.	2 ozs.
	Saveloys	1	1
	Marmalade	$1\frac{1}{2}$ ozs.	$1\frac{1}{2}$ ozs.
	Jam	$1\frac{1}{2}$ ozs.	$1\frac{1}{2}$ ozs.

Formula :—

Cocoa, per 100 pints=26 ozs. Cocoa, 3 lbs. Sugar,
 $1\frac{1}{2}$ gallons Milk.

Coffee, per 100 pints= $1\frac{1}{2}$ lbs. Coffee, $\frac{1}{4}$ lb. Chicory, $2\frac{1}{4}$ lbs.
Sugar, $1\frac{1}{2}$ gallons Milk.

Porridge, per 100 pints= $18\frac{3}{4}$ lbs. Oatmeal, 8 tins Con-
densed Milk, and 3 lbs. Sugar.

		Males.	Females.
DINNER.	Boiled Beef or Pork	4 ozs.	4 ozs.
	Haricots	4 „	3 „
	Vegetables	16 „	12 „
	Pea Soup	1 pt.	1 pt.
	Bread	4 ozs.	4 ozs.
	Fruit Dumpling	6 ozs.	6 ozs.
	Fish with White Sauce	8 „	7 „
	Potatoes	16 „	12 „
	Bread	4 „	4 „
	Ginger Pudding	6 „	6 „
	Meat Pies	12 „	12 „
	Vegetables	12 „	12 „
	Roast Beef, Mutton or Pork	6 „	6 „
	Vegetables	16 „	12 „
	or Blue Peas	4 „	3 „
	Bread	4 „	2 „

		Males.	Females.
Irish Stew	1 pt.	1 pt.
Bread	4 ozs.	4 ozs.
Bread Pudding	6 ozs.	6 „
Meat Puddings	12 „	12 „
Vegetables	12 „	12 „
Corned Beef	2½ „	2½ „
Potatoes	16 „	12 „
Bread	4 „	4 „
Ginger Pudding	6 „	6 „

Extras:—

Once a week when in Season: Stewed Rhubarb and Fruit with Rice and Treacle.

Once a week when in Season: Salads with dressing.

Formula—

Pea Soup for 100 Patients=18 lbs. Split Peas, 43½ lbs. Bones, &c., 50 lbs. Vegetables.

Fruit Dumpling, per 100 lbs. weight=56 lbs. Flour, 14 lbs. Suet, 9 lbs. Currants, 9 lbs. Raisins.

Bread Pudding, for 100 Patients=12½ lbs. Bread, 3 lbs. 2 ozs. Sugar, 2 lbs. 2 ozs. Fat, 21 lbs. 2 ozs. Currants.

White Sauce for 100 Patients=28 ozs. Flour, 12½ ozs. Margarine, Vinegar a sufficiency.

Meat Pies and Puddings, for 100 Patients=25 lbs. Flour, 6½ lbs. Suet, 25 lbs. Meat.

Irish Stew, for 100 Patients=25 lbs. Meat, 50 lbs. Vegetables, 8 lbs. Pearl Barley.

Ginger Pudding, per 100 lbs. weight=60 lbs. Flour, 15 lbs. Suet, 8 lbs. Sugar, 1 lb. Ginger.

	Males.	Females.
TEA.		
Two evenings—Cake (Currant or Seed)	7 ozs.	6 ozs.
Two evenings—Bread	6 „	5 „
Margarine ...	$\frac{3}{4}$ „	$\frac{1}{2}$ „
Fish or Meat Paste	$\frac{1}{2}$ „	$\frac{1}{2}$ „
Three evenings—Bread	6 „	5 ozs.
Golden Syrup, Jam or Honey ...	$1\frac{1}{2}$ „	$1\frac{1}{2}$ „
Each evening—Tea	1 pt.	1 pt.

Lettuce and Onions are given when supplies permit.

Formula for making Cake, per 100 lbs. = 64 lbs. Flour,
14 lbs. Currants, (or $1\frac{3}{4}$ lbs. Carraways), 14 lbs. Sugar,
21 lbs. Fat or Margarine, $\frac{1}{2}$ lb. Spice.

Tea, per 100 pints = 1 lb. Tea, 3 lbs. Sugar, $1\frac{1}{2}$ gallons Milk.
